BLACK MOVING PICTURE TENTS

Our black tents are made of black duck, top and wall thoroughly roped with best grade of manila rope, full width curtain plate on inside, and half-width scalloped border on outside all around eave of tent, also sod cloth all around bottom of wall. All sizes quoted up to and including 28 x 65 can be made either with round, gable or hip roof ends as per cuts shown. All sizes listed larger must be made with two round ends like show tents. Material and workmanship first-class. In 8 oz. tents we advise lining same, partly at least. In the lining of tents of this character we use a heavy and fine grade of black canton flannel or heavy black drilling, especially gotten up for the purpose and sewed fast to the tent, thereby making the tent absolutely dark and very desirable for moving picture work.

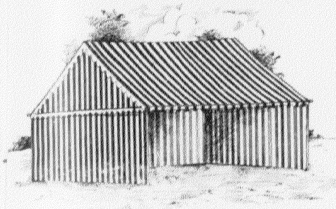
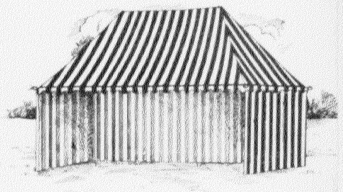
Concession Frame-Tents

These Tents are of a very practical design, easily and quickly put up or taken down and made ready for transportation and are made with a view to especially suit the purpose of men holding concessions at street fairs, carnivals, amusement parks, etc.

We require 5 to 8 days to fill Tent Orders.



Gable Roof End Style.



Hip Roof End Style.

The Tents are of the best materials to be bought on the market, and are exceptionally well made by roping them all around the eave and gables. There are also put large rings in corners for storm guys. The above prices include 7 feet loose sidewalls made in two pieces, back and sides in one piece and front in one piece, so as to be taken off when not in use, and to either snap or lace at the corners. These tents are made with sufficient pitch to insure them to throw off the water. Tent also has a 14-inch scalloped bound curtain or border all around at eave. We do not furnish the frame.
